Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Communication Plan:

Communication was essential for the successful development of the CredAI – Credit Card Approval Prediction project. Regular discussions among team members and the mentor helped track project progress and coordinate development activities. Technical issues were resolved through timely communication and collaborative problem-solving. This ensured smooth project execution and timely completion.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	Team Members	Discuss daily tasks, development progress, and feature implementation.
2	Progress Update	Weekly	Google Meet	Team Members	Review completed modules and plan upcoming tasks.
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub	Team Members	Resolve coding issues, deployment problems, and model integration challenges.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Members, Mentor/Faculty	Demonstrate project progress, receive feedback, and discuss improvements
5	Final Demo Rehearsal	Once	Google Meet	Team Members	Practice the final project presentation and application demonstration
6	Documentation Review	Once	Google Docs / WhatsApp	Team Members	Review project documentation, diagrams, and supporting materials

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Integrating the Machine Learning model with the Flask application.	Verified preprocessing steps, tested the trained model, and successfully integrated it with the backend.
2	Deployment issues while hosting the application on Render.	Updated project configuration, verified dependencies, and redeployed the application successfully.
3	Coordinating project development, testing, and documentation among team members.	Conducted regular discussions through WhatsApp and Google Meet, assigned tasks, and monitored progress throughout the project.
