

Demonstration of Proposed Features

Date	02 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document presents the features proposed during the planning phase of the **Credit Card Approval Prediction** project and their implementation status. It demonstrates that the planned functionalities were successfully developed, integrated, tested, and deployed as part of the final web application.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Credit Card Approval Prediction	Predicts whether a credit card application is likely to be approved using the trained Machine Learning model.	Implemented	Yes	Working successfully
2	Data Preprocessing	Validates and preprocesses applicant information before prediction.	Implemented	Yes	Input processing completed
3	Prediction History	Stores previous prediction records in the SQLite database for future reference.	Implemented	Yes	History module functioning correctly
4	ML Models Page	Displays information about the Machine Learning model and prediction process.	Implemented	Yes	Information displayed successfully
5	Responsive Web Interface	Provides an interactive and responsive interface for users across different devices.	Implemented	Yes	Fully functional
6	Render Deployment	Application successfully deployed and accessible through the Render platform.	Implemented	Yes	Deployment verified

Feature Implementation Summary:

Particular	Count
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
