

Project Demo Planning

Date	02 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-planned demonstration helps present the **Credit Card Approval Prediction** project in a clear and organized manner. This demo plan outlines the sequence of the presentation, highlights the major functionalities of the application, demonstrates the prediction workflow, and assigns responsibilities to team members for an effective project presentation.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the challenges of traditional credit card approval and the need for a Machine Learning-based solution.	2	Yagnesh Challa (Team member 1)
2	Project Overview & Architecture	Present the project architecture, technology stack, workflow, and application modules.	2	Gandham Johnson Paul (Team member 2)
3	Live Prediction Demonstration	Demonstrate applicant data entry and real-time credit card approval prediction using the web application.	3	Akkala Shanmukha Reddy (Team member 3)
4	History & ML Models Demonstration	Show the Prediction History page and explain the ML Models information available in the application.	2	Shaik Asha (Team member 4)
5	Technical Implementation	Explain the Flask backend, Machine Learning model integration, SQLite database, and application workflow.	2	Sravanthi Choudaboina (Team member 5)
6	Results, Future Scope & Conclusion	Present project outcomes, future enhancements, and conclude the demonstration.	2	Yagnesh Challa (Team member 1)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for credit card approval prediction and the benefits of using Machine Learning.
2	Solution Overview	Describe the system architecture, technology stack, and application workflow.
3	Live Feature Demonstration	Demonstrate user input, prediction generation, prediction history, and ML Models page.
4	Q&A Session	Answer evaluator questions and discuss future enhancements of the project.
