

Project Initialization and Planning Phase

Date	25 June 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer applying for a credit card	Check my credit card eligibility quickly	I have to wait for manual verification and approval	The approval process involves multiple checks and takes time	Frustrated and uncertain about my application status
PS-2	A bank credit officer	Evaluate multiple credit card applications efficiently	I spend significant time reviewing each application manually	Manual assessment is repetitive and prone to human error	Overloaded and concerned about inconsistent decisions

PS-3	A financial institution	Approve eligible applicants while minimizing	It is difficult to accurately identify high-risk applicants	Traditional rule-based methods cannot capture complex	Concerned about financial losses and inaccurate
